Tango Desktop Project

Been involved in Tango Desktop project since October 2005 trying to make the Linux desktop a more nicer and more predictable place for ISD/ISV's.

tango.freedesktop.org

GNOME Desktop

As a member of the GNOME art team, I have been a active part in designing gnome-icon-theme and various icons for different GNOME sub projects like Epiphany, Gossip, Evince, Last-exit and others.

Have also provided graphics for the gnome.org website, done t-shirt designs for conferences etc.

www.gnome.org

GNOME Foundation

Designed the 2008 Annual report and created graphics and website for the Friends of GNOME program at www.gnome.org/friends.

Have also done a lot of work on www.gnome.org in the form of graphics and texts.

www.gnome.org

GTK+

Designed the new GTK+ logo and website.

www.gtk.org

Scribus Page Layout application

Have been a active user and contributor to the Scribus Page Layout application and made the icons in the interface.

www.scribus.net

Mozilla Firefox 3

Ongoing work on Mozilla Firefox 3 for Linux, making it more visually coherent with the rest of the platform together with Alex Faaborg.

www.mozilla.org
